MATERIAL REQUIREMENTS

ARTWORK

National Gallery of Victoria only accepts digital material. PDFs preferred. (Note: We do not accept Word, Publisher or Powerpoint files.)

Please ensure that registration and trim marks do not appear on artwork. For full page and double page spreads bleed should be set to 4mm outside the trim area. Please take care to set this in the 'Marks and Bleed' area of your software program.

Ads can be submitted as press ready PDF files emailed to – hannahlouey@hardiegrant.com or sent on a disk. If sending material by disk, the disk must be accompanied by a colour printed proof.

Double page spreads are to be supplied as separate single page files with 4mm bleed all around. Any critical information across the spine area should be double imaged across the gutter. Double image allowance is 3mm each side of the gutter inclusive of the trim size. Spacing of type across the centre should clear the spine by a minimum of 6mm on each side.

WE ASK THAT:

All font information embedded. True Type fonts are not to be used. All scans to be at 300dpi minimum and scaled to no more than 100% of their size in the layout. Minimum type size recommended is 10pt. Type reversed out of a four colour image or background should be no smaller than 10pt. Consideration should be made when using coloured type that total density do not exceed ink limits. Also take care when using a light coloured tint where type detail might be lost.

Correct Grey balance calibration to be set for scans. Ensure colours in your document are CMYK. RGB or other colour formats will be rejected. Spot colours will not be accepted. If you are using PMS colours, these must be broken down into CMYK process colours on the original file.

Solid Black panels or large areas of background should carry at least 2 colours to reinforce the black print. We recommend at least 20% cyan or magenta. Total ink density should be between 280–310% with a black limit of 90% and allow for 15–20% dot gain. Recommended minimum line weight is 1pt with a maximum of 2 colours overprinting.

NGV Magazine is printed on 200gsm Lumi Silk (cover) and 90gsm Lumi Forte Satin Matt Art (text). All artwork supplied should carry the colour profile FOGRA39.
