

ANIMALS OF THE NILE

This is the beginning of a scene along the Nile River in Egypt. Animals such as fish, crocodiles, birds, hippopotamuses, cows, sheep and goats lived along the Nile.

Egyptian art is filled with beautiful drawings of these animals. Complete this landscape with your drawings of the animals that lived along the Nile.

Visit the NGV's children's exhibition *Ancient Egypt for Kids*. It's free and open every day until 6 October, 2024.
