

# ANIMAL TRACKS

Let's finish drawing these Aussie animals. You can add fur, feathers or spiky quills – just like the real ones in the bush.

Then follow the three different footprints called tracks to find out an interesting fact about each animal.

Let's go!

Echidna

I swallow large pebbles to help my stomach grind up food.

Emu

Thanks to my large feet, I can leap up to 9 metres in a single bound.

Kangaroo

My babies are called puggles.
