AMERICAN FUND
FOR THE NGV

DIRECTOR'S MESSAGE

The National Gallery of Victoria was established in 1861 and is the oldest and most visited public art museum in Australia. Welcoming around 3 million visitors each year, it is a destination for art, design and culture that is loved and respected by the local community and visitors from around the world.

With more than 75,000 works of art, the NGV is home to the most significant collection of Australian and international art in the Asia Pacific region. This remarkable cultural legacy continues to develop through the generous support of the philanthropic community and the corporate sector.

While the NGV has maintained a strong focus on developing its Asian, Australian and European collections, the work of artists based in the USA has long been identified as a critical area for development.

The American Fund for the NGV has been established to build a leading collection that will celebrate the immense contribution made by the USA to art history, design and the world around us today. Donors to the American Fund for the NGV will become part of the NGV American Friends group and will join an exclusive group of passionate supporters, be invited to the annual American Friends reception and events throughout the year and be kept at the forefront of acquisition and exhibition developments.

We sincerely thank Lisa Fox, NGV American Friends Ambassador, for her leadership role in bringing together a group of like-minded individuals to learn more about the Gallery.

You can play a transformative role in the development of the NGV Collection, our exhibitions and programming. We invite you to make a donation to the American Fund for the NGV and provide crucial support to enrich the experience of millions of visitors each year.

Director, National Gallery of Victoria

Crowds at NGV International

AMERICAN FUND FOR THE NGV

To build a truly representative collection of American art in Australia, the NGV has established the American Fund for the NGV. The fund aims to secure the support of donors who understand the critical importance of presenting the work of artists and designers born or living in the United States to present key movements in art and design and develop exciting collaborations for exhibitions and programs. We invite you to help transform the NGV Collection and our dialogue with the United States by contributing in any of the following ways.

ARTIST FUND
Support the NGV to commission and acquire works of art by leading artists and designers for Australian audiences to access. This fund will assist the NGV to better represent the work of artists and designers born or living in the United States as well as present important movements in art that had a profound impact in America.

EXHIBITION FUND
Each year the NGV presents a diverse and ground-breaking program of exhibitions which consistently attract record crowds and regularly gain international recognition. We are proud of our collaborations with American artists and institutions and invite donors to help us maintain this exciting and ambitious program.

BUILDING FUND
As Australia's most visited public art museum, the NGV plans to grow with our bold ambition to build a new home for contemporary art, NGV Contemporary. This landmark gallery will triple our capacity and position Melbourne as an international cultural leader. Be part of this once in a lifetime moment for Australia.

GIVING ART
American art and design has been identified as a significant area of development for the NGV's Collection. Donating a work of art will help us transform the NGV's holdings, address critical gaps in our collection and enrich the gallery experience for millions of visitors each year.
